## **PRODUCT SPECIFICATION SHEET**

KNITTED WIRE MESH

AHT Hatong manufactures the highest quality knitted wire mesh available worldwide. Offered in a variety of materials, AHT knitted wire mesh products can be used in a broad range of applications such as high temperature insulation, vibration and shock absorption, gas and liquid filtration, noise suppression, seal and gasket, EMI/RFI shielding to name a few.

Model	Hole Amount	Wire Diameter	Material	Weight
	and width	(mm)		(kg.m2)
Standard type	40 - 100	0.1 x 0.4	1Cr18Ni9	1/0.5
	60 - 180	0.1 x 0.4	1Cr18Ni9	1/0.5
	140-400	0.1 x 0.4	1Cr18Ni9	1/0.5
	40 - 100	0.27	Galvanized Lead Wire	1/0.7
	40 - 100	0.1 x 0.4	Red Copper Wire	1/0.7
	40 - 100	0.25	Polymide Yarns	1/0.7
	40 - 100	0.2	Polyethyline Wire	1/0.7
	40 - 100	0.2	Polypropylene Wire	1/0.7
Efficient type	60 - 100	0.15	Polypropylene Wire	1/0.7
	70 - 100	0.1 x 0.3	Stainless Steel Wire	1/0.6
	80 - 100	0.1 x 0.3	Stainless Steel Wire	1/0.6
	90 - 150	0.1 x 0.3	Stainless Steel Wire	1/0.6
	200 - 400	0.1 x 0.3	Stainless Steel Wire	1/0.6
	60 - 100	0.1 x 0.5	Stainless Steel Wire	1/0.6
	80 - 100	0.1 x 0.5	Polymide yarns	1/0.6
	20 - 160	0.1 x 0.4	Polymide yarns	1/0.4
High weaving type	30 - 150	0.1 x 0.4	Stainless Steel Wire	1/0.4
	70-400	0.1 x 0.4	Stainless Steel Wire	1/0.4

Styles: Flat and Crimped.

Wire diameter: from 0.008" to 0.011" is the common size.

Density: (#s) 60 density is the common size.

Roll Width: from 12" to 42" is the common size.

Roll Length: can be produced according to the client's requirements.

Weight per roll: can be produced according to the client's requirements.
